

2.3 Technology Integration in Correctional Education

<p>LEARNING OUTCOMES</p>	<p>Objectives:</p> <ul style="list-style-type: none">□ Analyze the importance of technology in correctional education and its impact on the learning process.□ Identify and use safe and efficient educational platforms and applications.□ Participate in interactive activities based on technology to enhance the learning process.□ Evaluate how the use of digital tools influences educational outcomes.□ Create and adapt digital educational resources, applying instructional design principles. <p>1.1. The Role of Technology in Correctional Education</p> <p>Learners will understand how technology can improve the educational process in correctional settings.</p> <p>Learners will be able to explain the benefits of using technology in these environments.</p> <p>1.2. Advantages and Challenges of Using Technology in Correctional Settings</p> <p>Learners will analyze the benefits and challenges of using technology in correctional education.</p> <p>Learners will be able to identify possible solutions to overcome challenges specific to this environment.</p> <p>1.3. Case Studies: Successful Examples of Technology Integration</p> <p>Learners will analyze and evaluate best practices in the use of technology.</p> <p>Learners will be able to apply successful models in their own educational contexts.</p>

2.1. Overview of Key Digital Tools Used in Education

Learners will learn to recognize and compare different digital educational platforms.

Learners will be able to demonstrate the use of relevant digital tools for correctional education.

2.2. Choosing Secure Platforms and Applications for Correctional Settings

Learners will learn to assess the security and effectiveness of digital platforms in correctional environments.

Learners will be able to identify the essential criteria for selecting secure platforms.

2.3. Practical Demonstration: Creating an Account on an Educational Platform

Learners will acquire practical skills in using an educational platform.

Learners will be able to navigate the essential functionalities of an e-learning platform.

3.1. Limitations of Technology in Correctional Education

Learners will identify and analyze the main barriers to using technology in correctional settings.

Learners will be able to propose alternative solutions to overcome these limitations.

3.2. Assessing the Impact of Digital Tools on Educational Outcomes

Learners will learn to analyze the impact of digital education on students' performance.

Learners will be able to compare data and studies to evaluate the effectiveness of technology in the learning process.

3.3. Case Study: Comparing the Efficiency of Two Platforms

Learners will test and evaluate two different educational platforms.

Learners will be able to analyze the advantages and disadvantages of each platform for use in correctional settings.

4.1. Design Principles for Digital Educational Resources

Learners will learn the fundamental rules of digital educational design.

Learners will be able to structure and create well-organized and effective digital resources.

4.2. Practical Exercise: Creating an Infographic on a Specific Topic

Learners will acquire practical skills in using digital tools to create visual materials.

Learners will be able to synthesize complex information into a clear and visually appealing format.

4.3. Feedback and Improvements for Created Resources

Learners will learn to give and receive constructive feedback.

Learners will be able to improve the digital materials they create based on received suggestions.

5.1. Summary of Competencies Developed in the Module

Learners will review and reflect on the knowledge and skills acquired.

Learners will be able to identify key takeaways and ways to apply them in practice.

5.2. Discussion: Planning the Implementation of Technology in Educational Practice

Learners will develop a personalized plan for integrating technology into educational activities.

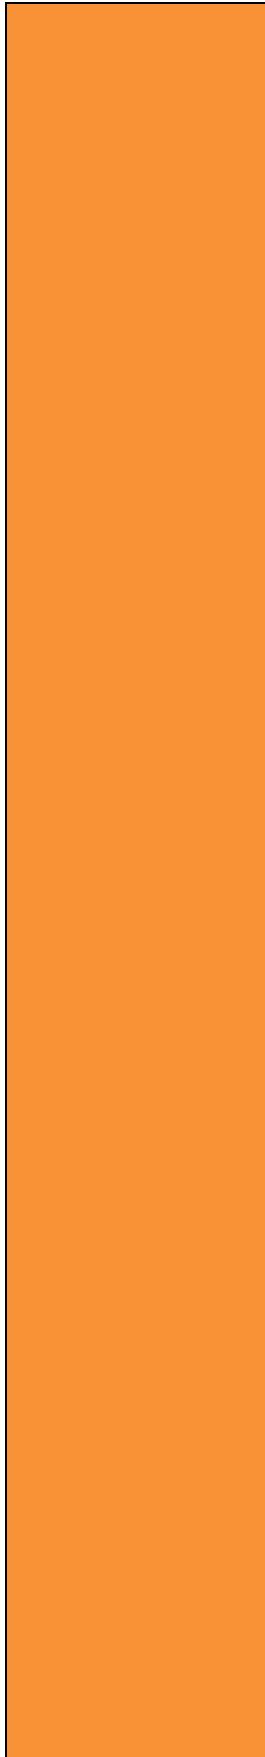

Learners will be able to justify and explain the choices made for technological implementation.

	<p>5.3. Final Evaluation of the Module (Quiz, Feedback)</p> <p>Learners will demonstrate the knowledge acquired through a final test.</p> <p>Learners will be able to provide feedback on the course and suggest improvements for future sessions.</p>
LEARNING ACTIVITIES	<p>Activity 1: The Role of Technology in Correctional Education</p> <p>Learners will explore how technology can improve the education process in correctional environments and increase access to education</p> <hr/> <p>Activity 2: Advantages and Challenges of Using Technology in Correctional Settings</p> <p>Reflective essay</p> <p>90 min</p> <hr/> <p>Activity 3: Case Studies – Successful Examples of Technology Integration</p> <p>Practical application: Analysis of relevant case studies on technology use in correctional education</p> <p>2 hours</p> <hr/> <p>Activity 4: Overview of Key Digital Tools Used in Correctional Education</p> <p>Providing an overview of popular educational platforms.</p> <p>90 min</p> <hr/> <p>Activity 5: Choosing Secure Platforms and Applications for Correctional Settings</p> <p>Learners will resolve an exercise</p> <p>90 min</p> <hr/> <p>Activity 6: Practical Demonstration – Creating an Account</p> <p>Hands-on exercise to familiarize learners with an educational platform</p> <p>Quizz</p> <p>2 hours</p>

	<p>on an Educational Platform</p>		
	<p>Activity 7: Limitations of Technology in Correctional Education</p>	<p>Interactive discussion on the restrictions imposed on technology use in correctional settings, workshop.</p>	90 min
	<p>Activity 8: Assessing the Impact of Digital Tools on Educational Outcomes</p>	<p>Workshop: Analyzing the effectiveness of technology in correctional education.</p>	90 min
	<p>Activity 9: Comparing the Efficiency of Two Platforms</p>	<p>Case study: Comparing two platforms used in correctional education.</p>	2 hours
	<p>Activity 10: Design Principles for Digital Educational Resources</p>	<p>Workshop: Learners will explore fundamental principles for creating attractive and effective digital educational resources.</p>	2 hours
	<p>Activity 11: Creating an Infographic on a Specific Topic</p>	<p>Practical application: Learners will create an infographic illustrating a specific concept.</p>	2 hours
	<p>Activity 12: Feedback and Improvements for Created Resources</p>	<p>Practical application and debate: Evaluating digital resources and identifying areas for improvement.</p>	1 hour
	<p>Activity 13: Summary of Competencies Developed in the Module</p>	<p>Recap of knowledge and skills acquired throughout the module.</p>	1 hours

Activity 14: Planning the Implementation of Technology in Educational Practice	<p>Practical activity: Developing a personalized plan for integrating technology into correctional education.</p>	2 hours
Activity 15: Final Evaluation of the Module	<p>Final test: Assessing knowledge and gathering feedback on the learning experience. Satisfaction survey</p>	2 hours
UNIT 1.		
Activity 1. The Role of Technology in Correctional Education		
<p>Description:</p> <ul style="list-style-type: none"> • An introduction where learners will explore how technology can improve the educational process in correctional settings and enhance access to education. - Lecture <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Explains the different technologies used in correctional settings. • Facilitates a discussion on the benefits of using technology. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Participate in discussions and share their experiences. • Analyze concrete examples of technology use. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO1,2 • Educational Content: Articles and studies on technology-assisted education • Assessment: Guided discussion 		
Activity 2. Advantages and Challenges of Using Technology in Correctional Settings		

<p>Description:</p> <ul style="list-style-type: none"> • Discussion on opportunities and challenges in implementing technology in restrictive environments. <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Highlights the advantages of technology in correctional education. • Encourages debate on encountered challenges. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Identify the advantages and disadvantages of technology in correctional settings. • Identify challenges and propose possible solutions. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO3,4 • Educational Content: Case studies on educational technologies • Assessment: Reflective essay <p>Activity 3. Case Studies: Successful Examples of Technology Integration</p> <p>Description:</p> <ul style="list-style-type: none"> • Analysis of relevant case studies on the use of technology in correctional education. <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Presents case studies and facilitates discussion. • Provides guidance in analyzing the impact of these examples. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Analyze and present conclusions based on the case studies. • Discuss the applicability of these practices in their own contexts. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO5,6 • Educational Content: Research reports • Assessment: Analysis of relevant case studies on technology use in correctional education <p>UNIT 2. Digital Tools for Correctional Education</p> <p>Activity 4. Presentation of Key Digital Tools Used in Correctional Education</p>	
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

	<p>Description:</p> <ul style="list-style-type: none">• Provides an overview of popular educational platforms. <p>Instructor's Actions:</p> <ul style="list-style-type: none">• Presents various platforms and applications.• Demonstrates the use of a platform. <p>Learners' Actions:</p> <ul style="list-style-type: none">• Test the presented platforms.• Express their opinions on the usefulness and ease of use of these platforms. <p>Connections:</p> <ul style="list-style-type: none">• Learning Outcomes: LO7,8• Educational Content: different platforms• Assessment: Practical exercise <p>Activity 5. Choosing Secure Platforms and Applications for Correctional Settings</p> <p>Description:</p> <ul style="list-style-type: none">• Identifying the essential criteria for selecting secure platforms. <p>Instructor's Actions:</p> <ul style="list-style-type: none">• Explains the risks and challenges of unsecured platforms.• Guides the comparative analysis of platforms. <p>Learners' Actions:</p> <ul style="list-style-type: none">• Compare different platforms in terms of security.• Debate the advantages and disadvantages of each solution. <p>Connections:</p> <ul style="list-style-type: none">• Learning Outcomes: LO9,10• Educational Content: core material• Assessment: Exercise- matching <p>Activity 6. Practical Demonstration: Creating an Account on an Educational Platform</p> <p>Description:</p> <ul style="list-style-type: none">• Hands-on exercise to familiarize learners with an educational platform.
------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

<p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Demonstrates step-by-step the process of creating an account. • Answers questions related to platform usage. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Create an account on the demonstrated platform. • Explore the basic settings and functionalities. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO11,12 • Educational Content: E-learning platforms • Assessment: Demonstration of account usage, quizz <p>UNIT 3. Analyzing the Use of Technology in Education</p> <p>Activity 7. Limitations of Technology in Correctional Education</p> <p>Description:</p> <ul style="list-style-type: none"> • Discussion on the restrictions imposed on the use of technology in correctional settings. <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Explains technological and logistical limitations. • Guides the debate on possible solutions. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Identify and analyze the main limitations. • Propose alternative solutions to overcome these limitations. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO13,14 • Educational Content: Studies on technological accessibility • Assessment: Group discussion, workshop <p>Activity 8. Evaluating the Impact of Digital Tools on Educational Outcomes</p> <p>Description:</p> <ul style="list-style-type: none"> • Analysis of the effectiveness of technology in correctional education. <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Presents studies on the impact of technology on educational

<p>outcomes.</p> <ul style="list-style-type: none">• Facilitates a self-evaluation exercise. <p>Learners' Actions:</p> <ul style="list-style-type: none">• Analyze and compare data on the impact of digital education.• Participate in a reflective exercise on their own digital learning experience. <p>Connections:</p> <ul style="list-style-type: none">• Learning Outcomes: LO15,16• Educational Content: Comparative studies• Assessment: Reflective essay <p>Activity 9. Comparing the Efficiency of Two Platforms</p> <p>Description:</p> <ul style="list-style-type: none">• Comparison of two platforms used in correctional education. <p>Instructor's Actions:</p> <ul style="list-style-type: none">• Presents the characteristics of the two platforms.• Guides the comparative analysis. <p>Learners' Actions:</p> <ul style="list-style-type: none">• Test and evaluate the functionality of both platforms.• Present conclusions on the advantages and disadvantages of each platform. <p>Connections:</p> <ul style="list-style-type: none">• Learning Outcomes: LO17,18• Educational Content: E-learning platforms and reports• Assessment: Group presentation <p>UNIT 4. Creating Personalized Digital Resources</p> <p>Activity 10. Design Principles for Digital Educational Resources</p> <p>Description:</p> <ul style="list-style-type: none">• Learners will explore the fundamental principles for creating attractive and effective digital educational resources. <p>Instructor's Actions:</p> <ul style="list-style-type: none">• Explains the basic principles of educational design.• Demonstrates examples of well-structured digital resources.

Learners' Actions:

- Analyze examples of digital resources and identify key elements.
- Propose ideas for creating their own digital resources.

Connections:

- Learning Outcomes: LO19,20
- Educational Content: Examples of digital educational resources
- Assessment: Individual project

Activity 11. Creating an Infographic on a Specific Topic

Description:

- Learners will create an educational infographic illustrating a specific concept.

Instructor's Actions:

- Demonstrates the use of an infographic creation tool (e.g., Canva).
- Provides guidance in selecting relevant content for the infographic.

Learners' Actions:

- Create an infographic on a chosen educational topic.
- Present the infographic and justify their design choices.

Connections:

- Learning Outcomes: LO21,22
- Educational Content: Visual guides and design tutorials
- Assessment: Peer feedback and presentation

Activity 12. Feedback and Improvements for Created Resources

Description:

- Evaluation of created digital resources and identification of improvement strategies.

Instructor's Actions:

- Provides constructive feedback on developed resources.
- Facilitates a session for reviewing and improving materials.

Learners' Actions:

- Analyze received feedback and enhance their digital

resources.

- Present the final version of their materials.

Connections:

- Learning Outcomes: LO23,24
- Educational Content: Studies on effective educational design
- Assessment: Peer-to-peer evaluation

UNIT 5. Creating Personalized Digital Resources

Activity 13. Summary of Competencies Developed in the Module

Description:

- Recap of the knowledge and skills developed throughout the module.

Instructor's Actions:

- Leads a reflection session on acquired competencies.
- Provides additional clarifications on discussed topics.

Learners' Actions:

- Identify key takeaways from the module.
- Discuss the applicability of competencies in their practice.

Connections:

- Learning Outcomes: LO25,26
- Educational Content: Summary of previous modules
- Assessment: Self-evaluation

Activity 14. Planning the Technology Implementation in Educational Practice

Description:

- Developing a personalized plan for integrating technology into correctional education.

Instructor's Actions:

- Guides learners in developing an implementation plan.
- Provides examples of best practices for technology integration.

Learners' Actions:

- Create an action plan for using technology in education.
- Present and discuss their plans.

	<p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO27,28 • Educational Content: Examples of technology implementation • Assessment: Presentation of the personalized plan <p>Activity 15. Final Evaluation of the Module (Quiz, Feedback)</p> <p>Description:</p> <ul style="list-style-type: none"> • Assessment of knowledge and collection of feedback on learners' experience. <p>Instructor's Actions:</p> <ul style="list-style-type: none"> • Administers a final test to evaluate learners' knowledge. • Collects and analyzes learners' feedback on the module. <p>Learners' Actions:</p> <ul style="list-style-type: none"> • Complete the final test. • Provide feedback on the course and suggest improvements. <p>Connections:</p> <ul style="list-style-type: none"> • Learning Outcomes: LO29,30 • Educational Content: Test and feedback questionnaire • Assessment: Final quiz and satisfaction survey
EDUCATIONAL CONTENT/ RESOURCES	<p>Core material in pdf and ppts.</p> <p>Online Videos (in the language created)</p>
UTILIZATION OF ICT	<p><i>Multimedia Digital Content</i></p> <p><i>AI-Powered Scenarios: Adaptive learning paths based on case-study responses.</i></p>
INSTRUCTIONAL METHODS	<p>Lectures and Presentations:</p> <p>Case Study Analysis:</p> <p>Collaborative Learning: Group discussions and team projects.</p> <p>Guest Speakers: Participation in activities conducted in the correctional environment</p>
DELIVERY MODE	<p>Online/Self-Directed: Theoretical content and case studies.</p> <p>Face-to-Face: Interactive exercises and simulations.</p>

	Work-Based Learning: Observation and participation in real correctional environments (where and if applicable)
ASSESSMENT METHODS (formative and/or other assessments for each unit/module, if applicable)	<p>Formative Assessments: Quizzes and exercises.</p> <p>Summative Assessments: Final evaluation: A personalized plan.</p> <p>Peer and Self-Assessment: Reflection exercises and peer feedback.</p>
